

Report on Video Conference 14-05-2020

- Vice – Chancellor (VTU), Registrar, Principals, Researchers & Students from various colleges attended the session to exhibit their work towards Covid-19 related Innovative ideas & research project approved for financial assistance.
- Around 58 project proposals were received for the grants and after scrutiny around 28 projects were selected.
- Our college students project was selected among these projects - **“IoT Based Low Cost Smart Ambu-Bag Compressing Machine for Low Cost Ventilators”** and was demonstrated in the conference.
- Vice – Chancellor after the demonstration suggested few points and the same has been listed below,
 - To meet the District Health Officer (DHO) to demonstrate the same and to get the feedback
 - To produce some units of the product with the help of Management and to help the society.
 - To brand the products in the name of ATME and to take up with Marketing later on.
 - Finally recommended to come out of some units of the product.
