Ref. No: ATMECE/PS/2023-24/251

Date: 04-06-2024

CIRCULAR

We're delighted to announce that **ATME College of Engineering** has been included in the Infosys Springboard dropdown. **Infosys Springboard** is a digital literacy program launched under the Infosys ESG Tech for Good initiative. Its goal is to empower students and communities at large, from early education to lifelong learning, by providing digital and life skills training through carefully curated content and interventions, all at no cost.

The Infosys Springboard program offers a variety of courses and certifications covering areas like Data Science, AI/ML, Computer Science, Digital Marketing, and more. These certifications are valuable additions to a student's resume, showcasing their skills and knowledge of current trends.

Our institute is now offering students the option to register for Infosys Springboard courses. Upon completion of at least **two Infosys Springboard** courses, totaling a minimum of 30 hours, or NPTEL/MOOC course certifications of equivalent duration, students will receive assignment marks.

It's important to note that students must enroll in courses aligned with their **chosen DST Domain**.

Additionally, students eligible for VTU BE Honor degrees who wish to pursue a minor degree must adhere to VTU norms and regulations.
