CO 4 : Apply greedy and input enhancement methods to solve graph & string based computational problems. CO 5 : Analyse various classes (P,NP and NP Complete) of problems CO 6 : Illustrate backtracking, branch & bound and approximation methods.
Assessment Details (both CIE and SEE) The weightage of Continuous Internal Evaluation (CIE) is 50% and for Semester End Exam (SEE) is 50%. The minimum passing mark for the CIE is 40% of the maximum marks (20 marks out of 50) and for the SEE minimum passing mark is 35% of the maximum marks (18 out of 50 marks). A student shall be deemed to have satisfied the academic requirements and earned the credits allotted to each subject/ course if the student secures a minimum of 40% (40 marks out of 100) in the sum total of the CIE (Continuous Internal Evaluation) and SEE (Semester End Examination) taken together. **Continuous Internal Evaluation:** ● For the Assignment component of the CIE, there are 25 marks and for the Internal Assessment Test component, there are 25 marks. ● The first test will be administered after 40-50% of the syllabus has been covered, and the second test will be administered after 85-90% of the syllabus has been covered ● Any two assignment methods mentioned in the 22OB2.4, if an assignment is project-based then only one assignment for the course shall be planned. The teacher should not conduct two assignments at the end of the semester if two assignments are planned. ● For the course, CIE marks will be based on a scaled-down sum of two tests and other methods of assessment.
