

Teacher's Day & Engineer's Day – 2024

REPORT

ATMECE organised Teacher's Day & Engineer's Day – 2024 on 20th September 2024. The event began with an invocation by Ganavi, a student from the 3rd semester of the ECE (Electronics and Communication Engineering) department. The invocation set a reverent and positive tone for the proceedings, aligning with the spirit of celebrating both Teacher's Day and Engineer's Day

The event was officially inaugurated with a warm welcome speech by Dr. L. Basavaraj, Principal of ATMECE. He extended his heartfelt greetings to all the dignitaries, faculty members, students, and guests present. Dr. Basavaraj highlighted the significance of celebrating Teacher's Day and Engineer's Day, appreciating the efforts of educators and engineers in shaping the future of society. He also acknowledged the contributions of the faculty and students, setting an encouraging and motivational tone for the event.

The event was inaugurated with the traditional lighting of the lamp.

Inauguration of Teachers Day and Engineers Day -2024

Speech by chief guest Mr. Shashidhar Dongre,

The Chief Guest, Mr. Shashidhar Dongre, delivered an inspiring speech emphasizing the importance of Engineer's in today's tech-driven world. He began by congratulating everyone on Teachers' Day, recognizing the critical role educators play in shaping society. He remarked, "Teachers are also engineers, whether they like it or not, we engineers are for life. Whatever you see around you, small or big, working or not working, is designed by engineers, and there is an engineer's hand behind it. Society must thank all our engineers."

Mr. Dongre went on to share valuable insights and experiences he had acquired over the past few years, using stories to motivate the students to think beyond conventional boundaries. His speech was not only a tribute to engineers but also a call to students to pursue innovation and creativity in their careers.

He concluded by congratulating the teachers and PhD holders who were honored at the event, reiterating the importance of their contributions to education and innovation.

Speech by guest of honour Dr.Syed Shkeeb-ur-Rahaman

The Guest of Honour, **Dr. Syed Shakeeb Ur Rahman**, delivered a motivating speech highlighting the significance of teachers in the lives of students. He began by greeting the dignitaries on stage and acknowledging the importance of celebrating both Teachers' Day and Engineers' Day on such a special occasion.

Dr. Rahman emphasized the role of teachers, stating, *"For everyone, it's essential for us to remember our teachers. We consider teachers next to our parents. It's not just one day to celebrate Teachers' Day and forget; we should remember teachers in our daily prayers."* He also quoted Dr. Sarvepalli Radhakrishnan, emphasizing how teachers must train their students to achieve the best outcomes.

He expressed his happiness that students are moving in the right direction and praised the faculty of ATME for publishing books, encouraging them to continue with such intellectual contributions. He mentioned that he hopes to see an increase in the number of books published in the coming years.

Dr. Rahman also spoke on the importance of continuous research, noting that *"Getting a PhD opens the door for further research, and PhD holders should not stop their research after obtaining the degree. Getting a PhD is not the end of your research; you should continue to work on publishing papers."* He concluded his speech by motivating both the teachers and students, stressing the lifelong impact of teachers on students' lives.

On this auspicious day, three books were officially released, authored by the esteemed faculty members of ATME. These publications reflect the dedication and scholarly contributions of the faculty to the academic community.
