

DEPARTMENT OF CIVIL ENGINEERING

Technical Talk on

“APPLICATION ON PRE-STRESSING IN CONSTRUCTION”

Department of Civil Engineering organized a technical talk on “Application on Pre-stressing in construction” on 07th March 2023 for 8th semester students with an objective of minimising the gap between the academics and industry.

DEPARTMENT OF CIVIL ENGINEERING , ATMECE MYSURU

INVITES YOU FOR

TECHNICAL TALK ON

“APPLICATION OF PRE-STRESSING IN CONSTRUCTION”

Date: 06th March 2023

Venue: ATME College of Engineering

Convener

Mr. Manu Vijay

HOD, Department of Civil Engineering
ATMECE, Mysuru

Coordinator

Mr. Srivathsa H U

Asst. Prof, Department of Civil Engineering
ATMECE, Mysuru

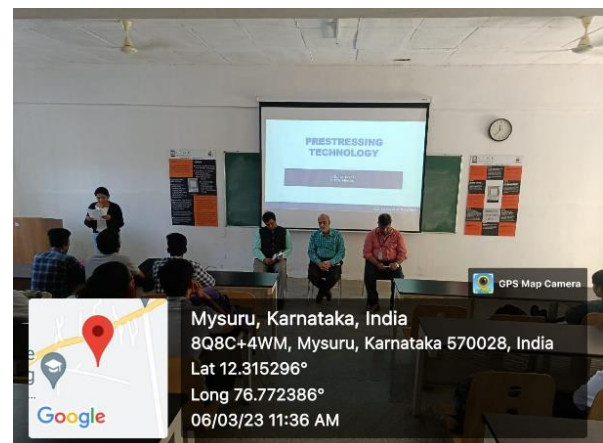

Resource Person

Er. Dileep Srinivas

Manager
Larsen & Turbo Corporate Devision,
Mysuru

Audience : 8th semester students of Dept. of CE, ATMECE Mysuru

Resource person during the presentation explained why the Pre-Stressed structures play a vital role in civil engineering. The advanced methods of using the pre and post tensioned structures in construction to design the structural concepts with having the maximum usage. The high rise , metro and long span bridge structures are very trending nowadays in which pre stressed structures are very much essential.
